IT: Software/Web Development & Computer Support Technician – *Western Technical College associate degree* (2019-Present)

Skills

Programming Languages – Advanced in JavaScript, ReactJS, NextJS, CSS, and HTML. Intermediate in Python, C#, C++, MySQL, PHP, Java, Typescript, and the Command Line/GitBash.

Web/Software Tools: Windows 7, 8 & 10, Mac OS, ASP.NET, GitHub, Apache Server, cPanel, Android Studio, Google Analytics, WordPress, Windows OS, iOS, Mac OS, Unity, SQL Server Management Studio, Sublime Text, Eclipse IDE, Insomnia, MongoDBCompass, Unity Gaming Engine, Google, Firefox.

Microsoft Tools: Microsoft Teams, Word, Excel, Access, Visual Studio, Visual Code, OneNote, and PowerPoint.

Collaboration tools: Slack, Zoom, and GitHub.

Academic Projects

Western Technical College, La Crosse, WI | Summer of 2021

- Customized the La Crosse Children's Museum website with a team of students. Here is the link, https://www.funmuseum.org/
- Collaborated with my team to add the "*Games*" feature to the navbar, https://games.funmuseum.org/games/

- Executed the "I-Spy" game applying JavaScript, WordPress, and a gaming plugin.

- Created a well-designed, commented, testable and efficient code for future improvements.

Western Technical College, La Crosse, WI | Summer of 2020

- Self-taught on how to build a 2D video game called "Pogo Man" using C# and the Unity gaming engine. Let me know if you'd like to see my game.
- Worked with C# to add abilities and features to objects and characters in the game.
- Sketched and animated the gaming sprites utilizing the windows Paint app.
